

## Alternative ATEX Approval of All Equipment

Alternative for all equipment - ATEX compliance. Unit Verification

Unit Verification combines all of the requirements of the testing, assessment and quality control assessment into one certificate. It is used for single items or small numbers of items. The Notified Body verifies the quality of the manufactured product, so the Notified Body number is included next to the CE mark, even for equipment that does not normally need it (Category 3)

### Certification Management Limited

Unit 1 / 7, Newport Business Park, New Port Road Ellesmere Port, CH65 4LZ
